

30 June 1950

MEMORANDUM FOR []

SUBJECT: Arthur T. Latter, exploitation of.

1. I have just signed a project providing for the renewal of Mr. Latter's contract with OPC for a further year and I note that it is provided that the EE division has assumed responsibility for the handling of matters connected with him, including responsibility for his used.

2. As I have stated on numerous previous occasions, I am most anxious that the fullest possible use be made of Mr. Latter's knowledge and capacities and to this end I expect that EE will not fail to maintain frequent and regular intercourse with him. I further assume that other areas of our organization, including in particular Staff I, will consider that Mr. Latter is available to them for consultation and assistance. This should of course be coordinated through EE in order to avoid duplication and confusion.

3. I request that Mr. Latter be called upon at once to prepare a rather full estimate of the Soviet grand strategy in so far as it is revealed by the Korean adventure and concurrent developments. Will you please see to it that this request is promptly put to Mr. Latter with an indication that I personally have asked for it.
